

# Sign up for a free Brand New Thinking strategy workshop and discover Thinking Unlocked

- Our virtual '**Brand New Thinking**' strategy workshops are an opportunity to discuss current **challenges** and **opportunities**; identifying what is needed and what is potentially holding you back?
- This is a chance to look into the future and formulate both a vision and roadmap for **where you want to go**
- Together we will **craft** the right workshop for you, deciding which **creative and strategic** exercises best meet your needs
- We will do all of the **prep** for the workshop and **facilitate** it to make sure the difficult questions are asked
- We will encourage all members of your team to think in new and creative ways
- A virtual workshop usually lasts a maximum of **90 minutes**
- We will collaborate with you following the workshop to help **successfully implement the strategy** and **bring ideas to life**
- We know some people are feeling the Zoom fatigue, so our goal is to make this feel **new, different** and **exciting!**
- To find out more please email Polly Holmes
